Nonlocal problems with critical nonlinearities

Prof. Raffaella Servadei

University of Urbino Carlo Bo, Italy
raffaella.servadei@uniurb.it

Abstract :

Fractional and nonlocal operators appear in concrete applications in many different fields. This is one of the reason why, recently, nonlocal fractional problems are widely studied in the literature.

Aim of this talk will be to discuss some existence and multiplicity results for critical nonlocal problems got via variational and topological methods.
